Beef & Dairy Feeds

Farmers Exchange offers premium beef and dairy feeds for optimal health and performance.

CFE 9% Chop Feed

FEEDING DIRECTIONS:

- Brood Cows on pasture: Feed as a source of energy to adult beef cattle on pasture and dry-lot, where additional energy is required to maintain body weight or condition and herd health. Free choice salt and mineral mix to Brood Cows.
- Cattle: Animals being raised for market should be top dressed with the appropriate supplement.

CFE 11% Beef Finisher

A finishing feed formulated for beef & dairy beef feedlot cattle

FEEDING DIRECTIONS:

- Full feed for cattle in the finishing stage (body weight 800+ lbs).
- Offer fresh, clean water at all times.
- Feed and water supply should be checked twice daily.

CFE 12% Show Beef Feed

An excellent feed for show cattle at all stages.

FEEDING DIRECTIONS:

- Full feed for growing beef cattle.
- Offer fresh, clean water at all times.
- Feed and water supply should be checked twice daily.

Beef & Dairy Feeds

Farmers Exchange offers premium beef and dairy feeds for optimal health and performance.

CFE 14% Calf Grower Feed - Medicated

For increased rate of weight gain in pasture cattle (slaughter, stocker, and feeder cattle and dairy and beef replacement heifers) when fed continuously at a rate of no less than 60 mg nor more than 200 mg of Lasalocid per head per day. For control of coccidiosis caused by *Eimeria bovis* and *Eimeria zuernii* in cattle when fed at the rate of 1 mg per 2.2 lb of body weight. Feed a maximum of 360 mg/head/day of Lasalocid.

FEEDING DIRECTIONS:

- Feed Carrollton Farmers Exchange Calf Grower to growing heifers, bulls, and dairy beef at the rate of 0.75 to 2.5 pounds per 100 lbs. of body weight.
- This will supply 13.5 to 45 mg of Lasalocid per 100 lb of body weight per day.
- Offer fresh, clean water at all times.
- Feed excellent quality hay to younger calves and good quality forage to older animals.
- This is a grower-type feed and can be fed from 15 weeks to 2 years of age.
- Offer salt and mineral mix, free choice.

CFE 15% Dairy Beef Feed

FEEDING DIRECTIONS:

- Full feed for growing beef and dairy feedlot cattle.
- Offer fresh, clean water at all times.
- Feed and water supply should be checked twice daily.

**Beef &
Dairy
Feeds**

Farmers Exchange offers premium beef and dairy feeds for optimal health and performance.

CFE 16% Hi-Energy Dairy

FEEDING DIRECTIONS:

- Full feed for lactating dairy animals.
- Feed at the rate of 1 pound of this ration for every 3 pounds of milk produced.
- Feed excellent forage and free choice salt and mineral

CFE 19% Calf Starter Feed - Medicated

For increased rate of weight gain in pasture cattle (slaughter, stocker, and feeder cattle and dairy and beef replacement heifers) when fed continuously at a rate of no less than 60 mg nor more than 200 mg of Lasalocid per head per day. For control of coccidiosis caused by Eimeria bovis and Eimeria zuernii in cattle when fed at the rate of 1 mg per 2.2 lb of body weight. Feed a maximum of 360 mg/head/day of Lasalocid.

FEEDING DIRECTIONS:

- Start calves on Carrollton 19% Calf Starter as early as possible.
- Feed at the rate of 1.5 lb per 100 lb of body weight.
- This will supply 46 mg of Lasalocid per 100 lb of bodyweight per day, which is the required level of Lasalocid required for the prevention of coccidiosis.
- Offer clean, fresh water at all times.
- Excellent quality hay should be fed from the second week of life.
- Feed to approximately 15 weeks of age. Then switch to Carrollton 14% Calf Grower.
